These audits are identified as the top issues impacting **your performance**.

IMPACT	AUDIT
Med	<div><div>Avoid enormous network payloads</div><div>LCP</div><div>Total size was 3.80MB</div></div>
Med	<div><div>Serve static assets with an efficient cache policy</div><div>Potential savings of 3.48MB</div></div>
Low	<div><div>Efficiently encode images</div><div>Potential savings of 2.29MB</div></div>
Low	<div><div>Properly size images</div><div>Potential savings of 480KB</div></div>
Low	<div><div>Eliminate render-blocking resources</div><div>FCP LCP</div><div>Potential savings of 10ms</div></div>

Focus on these audits first

These audits likely have the largest impact on your page performance.

Structure audits do not directly affect your Performance Score, but improving the audits seen here can help as a starting point for overall performance gains.
